Report on Accounting Trail Challenge Activity

The Commerce Department of PCACS, Ravet successfully organized an **Accounting Trail Challenge** for FYBCOM, SYBCOM and TYBCOM students as a subject enrichment activity. The main objective of this activity was to strengthen students' conceptual understanding of the complete accounting cycle and to enhance their practical skills in Accountancy.

The activity was designed in the form of a challenge where students were provided with a set of business transactions. Participants were required to record journal entries, post them into ledger accounts, prepare a trial balance and finally draft the final accounts. The activity encouraged analytical thinking, accuracy and time management among students.

Students actively participated and showed keen interest throughout the session. FYBCOM students gained clarity on basic accounting procedures, while SYBCOM and TYBCOM students demonstrated a deeper understanding of accounting principles and presentation of accounts. The competitive and engaging format helped students revise concepts in an enjoyable manner.

Faculty members guided the students during the activity and clarified doubts wherever required. Overall, the Accounting Trail Challenge proved to be an effective learning experience and successfully met its academic objectives by bridging the gap between theoretical knowledge and practical application.
