Report on Accounting Antakshari Activity

An Accounting Antakshari activity was successfully conducted on **21st January 2026** in **Classroom No. 504** for the students of **FYBCom, SYBCom, and TYBCom**. The activity was organized with the objective of enhancing students' interest in Accounting and strengthening their conceptual understanding through an interactive learning approach.

The activity was designed in the format of an Antakshari game, where students were divided into four teams and were required to respond using accounting terms, concepts, journal entries, and key words related to Accounting. The game encouraged quick thinking, teamwork, and active participation from students across all three classes.

Students enthusiastically participated in the activity and demonstrated sound knowledge of accounting concepts. The competitive yet academic environment helped in revising important topics in a stress-free and engaging manner. The activity also improved communication skills and boosted students' confidence in using accounting terminology correctly.

Overall, the Accounting Antakshari activity was a great success. It made learning enjoyable while fulfilling academic objectives and was well received by both students and faculty. Such activities contribute positively to experiential learning and should be conducted regularly to reinforce classroom teaching.
