Report on School Connect Program

Pimpri Chinchwad College of Arts, Commerce and Science (PCACS), Ravet conducted a **School Connect Program** for the 11th and 12th standard students of **Shri Anausaya Ovhal Junior College**. The program aimed to provide students with clarity about higher education pathways and introduce them to the academic opportunities available at PCACS Senior College.

During the session, our faculty members explained the key features of the **National Education Policy (NEP) 2020**, highlighting the major changes brought into the education system such as the multidisciplinary approach, multiple entry and exit options, skill-based learning, and flexibility in subject choices. Students were given an overview of how NEP 2020 focuses on holistic development and prepares learners for emerging career prospects.

The team also presented detailed information about the **courses offered at PCACS Senior College**, including Arts, Commerce, and Science streams. They discussed career opportunities, value-added courses, extracurricular activities, and various support systems provided by the college to ensure overall student development.

The session was interactive, and students actively participated by asking questions related to NEP, career options, and admission processes. The program successfully helped bridge the gap between school and higher education, guiding students to make informed decisions about their future academic journey.
